Leonard explained how the road commission would be "pulling in" the roads when possible to prepare for brine. It will begin in the northwest corner of the county with Beckman's to follow.

Leonard read a message from Cathy May, Dover Township, stating how pleased she was with the road commission and the work they have done.

Conrad stated Beckman's would like to start applying brine sooner than later, hoping to start by May 1st and the second application happening sometime around the second or third week of August.

Danek requested advanced notice before brining.

Conrad assured the group that Beckman's top priority is making sure the customer is happy and the job is done right.

Fitz asked if the road commission will do any of the brining.

Leonard - The road commission will only brine around work zones and projects.

Haslock – Follow up meeting October 16th, 2019.
