Audit is complete. LaPointe will present the financial statement at the next board meeting.

ACT 51 is complete. Will review at next board meeting.

MANAGER:

Engineers have determined that the Road Commission can open S. Branch to local traffic; no truck traffic. It will impact the amount of emergency funding by opening before repairs are made.

Bore samples revealed a lack of gravel at the Bosschem property.

Would like to bore sample Webber pit in the wooded area. Williams will get some bids from loggers to cut the timber. Board agrees.

Williams will begin ordering gravel since the Bosschem property didn't work out.

Will begin chip sealing five foot strips.

Mason County Road Commission has indicated they are too busy to do any wedging for us.

Williams has had a couple phone calls from a resident on 72nd Street. Unfortunately, resident's issue is not something the road commission can correct for him as it is a problem with his driveway culvert.

Has begun looking in to government programs to purchase used equipment.

Road Commission will have to replace a charger for 800 mhz radio as it was never returned from Steve Leonard.
